If you are unsure of any of the below directions and or your ability to correctly and securely install this product, please contact us or your local dealer for help. Below diagrams show typical installation, your vehicle may be different so please use diagrams as a guide. Make sure your vehicle is clean and free from dirt, road grime etc. where the this product mounts. It is the riders responsibility to make sure the product is mounted and secure before each use. Loading the bag may result in a change of position, always check for proper mounting position after loading and before each and every ride.

The Rigg Gear Tool bag set is designed to be universal mount, so method of installation may vary depending on your vehicle. After inspecting your vehicle, determine the best location with 4 secure tie down locations such as frame rails or bed "D" Rings.

Using the supplied straps, pass around secure part of the vehicle, feed the strap through the loop end, and pull tight.

Feed the remaining strap through the buckle on the bag. Apply same steps on remaining straps.

Once all 4 straps are attached pull evenly to secure the bag. There are also mounting locations on the top or sides of the bag to use your own straps or bungee cords.
