

TR-4191S - Quiet System

Polaris XPEDITION Stage 5 Dual Stainless Slip-on Exhaust

Disassembly

1. Remove 2 bolts and springs from exhaust flange and remove stock muffler assembly. Retain rubber grommet, bolts and springs for re-use.
2. Remove heat shield and retain 6 bolts for re-use.

Assembly

1. Install black cover with "Trinity" logo in place of OEM heatshield re-using 6 bolts from OEM heatshield (**Image #1**)
2. Install muffler mounting brackets to muffler assembly as pictured.
(**Images #2, #3 & #4**)

NOTE: Bolts used to mount brackets to assembly will already be installed. You will need to remove bolts from assembly and re-install with brackets.

3. Slide the factory rubber grommets from OEM muffler mounting back into their original positions.
4. Slide Muffler hangers into mounting holes in grommets, passenger side first. Tilting and manipulating muffler should help with this process.
5. Secure inlet flange to factory header pipe re-using bolts and springs from OEM flange.
6. Tighten all bolts starting at the exhaust flange and working towards outlet.
7. Install 1/2" washers and cotter pins to brackets to secure exhaust mounting tabs as shown in images.

WARNING

*Trinity Racing exhaust systems will require adjustment to OEM fuel settings such as jetting changes or installation of an EFI programmer. Trinity Racing will not be held responsible for damages that occur during operation of your vehicle under improper fuel settings. Ultimately, it is the responsibility of the owner/rider to adjust fuel settings to specific riding conditions and elevation changes before riding.

*Inspection of the muffler packing is recommended following every 15 hours of runtime. Failure to maintain muffler packing will result in power loss, increased sound output, and damage to the muffler body or muffler components.

*Trinity Racing exhausts systems are designed for high performance applications and are legal for closed course competition only. This product is not applicable nor intended for use on emissions controlled street, highway, or off-road vehicles.
